

Village Primary Pupil Voice Autumn 2 2022

Question	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
What is Geography?	It's the world.	It's about the world. It's work.	It's the Earth, the world, countries.	Its learning about the world around us, weather, ,rivers and seas. We use globes and maps to find places.	It's when we use maps and learn about all of the countries and capital cities.	It is when we study the world. We need to know continents, countries, capitals, rivers, seas, oceans. We learn about the different weather and people who live in different places.	It is when we look at the world and its environment. We use maps to locate places. We learn about the continents, countries, capital cities and towns. We use a compass to find where somewhere is located and give people directions and look at how the weather is different. We know the hotter places are near the equator unless it's a mountain like Kilimanjaro which is cold because it is high up. We also learn about people and how they affect the environment.
Why is it important that we have Geography lessons in school?	It's our world.	I know where I live	Can learn about places I want to go on holiday to.	Need to know where we live and where we might want to move to.	Need to know about where we live and what is in our local area. If you get lost you need to know your address and directions.	Need to learn about how to protect our world, we only have one world and we need to care for it.	Nothing is more important than the world. Need to learn about Climate change so we can help stop it. Need to protect our world. If you are out and get lost you need to be able to follow google maps or if your phone dies you need to be able to read a paper map and recognise places in your local area.
What do you know about Thornaby and our local area?	My house is there. My school is there. It has a Church, it has a field, it has lots	It is where I live, my family live there. It has lots of shops like Sainsburys and Asda	It is my address and my family live near me. It has a park that I can play in. There are lots of shops that we can walk to or go by car.	There are lots of things to do. My house is there and there are fields to play on and we have parks. There are lots of shops and Churches and a post office. Our school is	It has a river called the River Tees. My house is there. We have allotments and a park. There are lots of houses and shops.	It's a town in the North East of England. I can find it on a map. We live there. Its in England part of the British Empire. Roseberry topping is near.	Use to be an aerodrome. Streets and schools named after RAF pilots. Use to have lots of farm land. River Tees. Has an airport. Its in the North East of England. Thornaby Road is the main road and that takes us to the A19 which can take us to Newcastle or York.

	of shops and cars.			there. Some of the roads are busy.			
What do you know about the United Kingdom?	England is in it.	London is there and that's where the Queen lived.	England, Scotland, Wales, Ireland	England, Scotland, Wales and Northern Ireland It has seas and Rivers.	England, Scotland, Wales and Northern Ireland North Sea. London is capital of England, Edinburgh is capital of Scotland, Cardiff is capital of Wales	England, Scotland, Wales and Northern Ireland North Sea. Irish sea. River Thames, River Tees London is capital of England, Edinburgh is capital of Scotland, Belfast is capital of Northern Ireland Cardiff is capital of Wales. Only Northern Ireland is in UK not the rest of Ireland.	4 different countries-Scotland, England, Wales and Northern Ireland. We have British Values. Years of invention came from Britain, it has factories. UK had one of the longest reigning monarch. It is an Island because its surrounded by The North Sea, North Atlantic Ocean, English Channel and Irish Sea. It has construction and buildings but also lots of trees, countryside and moors. Weather is average – not too hot not too cold.
What do you know about the world?	It is a globe. Lots of people live there	Lots of people live in it. There are lots of countries.	There are 7 continents countries have different weather hot and cold.	It is a sphere, you can see it in space. There are 7 continents. They all have different weather. Lots of different people live in the world	You can see it on a globe and on maps. There are 7 continents, it has a lot of water and land. The weather is different all around the world. Near Equator it is very hot. The weather is changing because of climate change	People use to think it was flat but it is a sphere you can see it from space. There are 7 continents, Europe, Australia, South America, North America, Africa and Asia and Antarctica. Closest to the Equator is very hot, further North and South of the Equator is very cold.	You can see it from space and on World maps in an atlas. There are 7 continents, Europe, Asia, North America, South America, Africa , Australia, Antarctica. Closest to the Equator is very hot, further North and South of the Equator is very cold. Unless it is a mountain. Land is getting smaller because of climate change and the sea levels rising. Countries have different borders sometimes change. Global warming is damaging our world. Luxembourg is the smallest country
What do you know about maps?	They have places on. We can	They are in an atlas.	They are in an atlas. They have countries in. We have a school	Maps show us where places are. They have all the countries of the world in and the	We can use maps when we do orienteering. We need them to find where places are. They have a compass	Maps have North, South, East and West. The compass is usually at the top	You use a map to find a place. They have a compass on them so we know which way is North, South, East and West.

	look at them. Atlas		map that we use on the playground.	seas and capital cities.	on them. They have a glossary at the back of an atlas.	of a map. We have world atlases and UK atlases. You use a map to find somewhere. It shows continents, countries, cities and towns. Also rivers and seas.	An atlas is full of maps. You can have a world map or a map which focuses on a continent, country, city or town. Maps help you with directions. You can have different types of maps – population, language, weather, climate, land coverage. Maps have a key and they show us how big or close or far something is.
